## SERVICING & PARTS

59. Servicing and Parts, Finding your Specialist Dealer, Warranty

MTD headquarters in Cleveland Ohio, USA

MTD production

MTD grows and buys its own die cutting tools and a rolling machine. The company starts the production of complete window constructions.

During the Second World War MTD carries out tool and die work for large companies such as Goodyear.

MTD produces garden equipment for the first time. The production of the first wheelbarrow lays the cornerstone for MTD's future.

Back to the roots: with the take-over of the Venzki GmbH in Germany, MTD returns to the European market.

MTD introduces the first lawn tractors with rear discharge to the European market and the LAWNFLITE brand is introduced to the U.K.

1932	1933	1942	1954	1970	1976	1991-1997
------	------	------	------	------	------	-----------

The Modern Tool and Die Company – in short MTD – is born in the USA. The company is founded by the German immigrants and engineers Theo Moll, Emil Jochum and Erwin Gerhard.

MTD produces its first radiator grill for the automobile industry.

MTD starts the production of bicycles and toys.

MTD produces its first rotary lawn mower. This sets the course for specialisation in the sector "motorised garden equipment".

MTD establishes branches in France, Austria, Hungary, Sweden and Denmark. The European central office finds its home in Saarbrücken-Bübingen with the take-over of the well established company GUTBROD, a producer of motorised garden equipment.

# HISTORY

## 85 YEAR SUCCESS STORY

### WHO IS LAWNFLITE?

Lawnflite is the UK brand of MTD, the world's largest manufacturer of motorised gardening tools. Lawnflite is one of the most popular makes of ride-on lawn tractors and garden machinery in the UK offering a huge range ensuring there is a product suited to everyone.

### MTD - SINCE 1932

MTD, the "Modern Tool and Die Company", with its headquarters in Cleveland, Ohio is the world's largest manufacturer of motorised gardening tools. MTD Products Inc. was founded in 1932 and is still family owned. MTD has manufacturing capacities in the USA, Europe, Asia and Canada. The company enjoys the additional support of a global network of dealers who share in the corporate philosophy of dedication, integrity and, above all, customer service.

### MTD - HIGH PERFORMANCE, FAIR PRICE

The most comprehensive assortment of motorised garden equipment for almost every possible use is produced under the brand name MTD. Hobby gardeners can select from a wide range of different products that all have one thing in common: they are user friendly, robust and tough. When you select an MTD- product, you select a long lasting companion for your gardening work.

Photo of Theo Moll, 1932

Tractor production begins in Saarbrücken. MTD manufactures today almost all of the lawn tractors for the European market at its location in Saarland. MTD, German manufacturer with quality "Made in Germany", enjoys a good reputation all over the world.

MTD opens a factory in Hungary for the production of lawn mowers and significantly increases production capacity in Germany. In the same year, MTD begins production of 2 and 4-stroke engines, brushcutters and trimmers by taking over Ryobi North America.

In its 75th year, MTD once again, expands its production location in Saarbrücken.

MTD produce the 1st World mower. Smart and Optima model production starts in Hungary.

New hydrostatic Mini Rider launched

2015

2017

The central warehouse in Valmont, France is established.

Further branches in Belgium, Italy and Switzerland are established.

As a new branch, MTD Poland expands the distribution network in Eastern Europe.

Branches in Russia and Bulgaria are established. MTD takes over WOLF-Garten and fully integrates WOLF-Garten into the MTD organisation.

The new OPS 700 Sweeper was launched in 2015.

No two gardens are alike.  
Some people can hardly  
wait to mow their lawn,  
whereas for others it is a  
necessity.

One thing is certain: choose  
the right product and work  
is fun. Lawnflite certainly  
has the product to suit your  
needs.

## HOW TO CHOOSE THE RIGHT MOWER

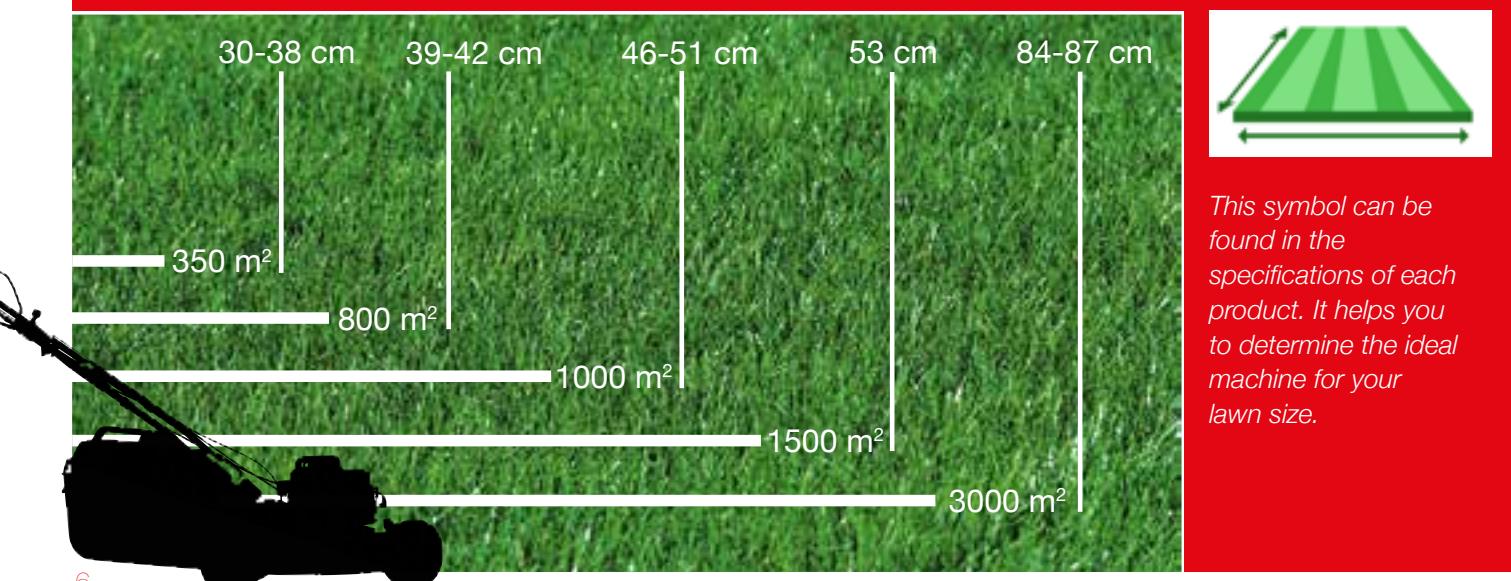

### TYPE OF LANDSCAPE

Choose a self propelled lawnmower with large wheels for hilly, sloping or uneven ground or for places hard to reach.

### LAWN SIZE

To determine the mower best for you please use the symbol you can find beneath every product picture. For a first orientation please use the chart below.

## CUTTING WIDTH AND LAWN SIZE

**The benefits at a glance**

Choose between bagging or discharge of the clippings

High cutting performance

Powerful MTD ThorX OHV engines on most models

Easy mowing on uneven lawns with all Lawnflite Smart self propelled lawnmowers

Individual height adjustment through 6 position

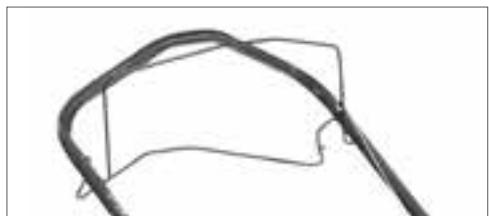

Mulch kit available as an accessory

**Engines**

## SMART PETROL MOWER'S

The Smart Range from Lawnflite offers the perfect choice for anyone looking to step up from electric models to more powerful petrol models. With cutting widths ranging from 42 cm / 16" to 53 cm / 21", and powerful, yet quiet petrol engines, you will quickly see the benefits across your lawn. Our handy area guide will help with size selection and on all models you have the option of self propelled rear wheels (on all SPO models except the 53MSPB model which has front wheel drive). Large capacity grass boxes and the ability to convert all models to mulch with the optional mulching system makes these machines an excellent choice for all grass types and conditions.

All models have easy to operate individual wheel height adjustment with settings from 28mm to a maximum of 92mm. The higher settings allow the machine to cope with longer grass on uneven ground. Check out the full range and specifications on the next page.

## COMFORT MOWER'S

The Lawnflite Comfort Range combines the high cutting performance of a petrol lawnmower with comfort and style. Featuring a solid steel deck, comfort grips on the handles, easy starting recoil pull and the option to choose push or self-propelled this range of lawnmowers delivers specifications traditionally only found on higher priced machines. The self-propelled models make light work of cutting larger lawns at a comfortable 3.6km/h and the large 60 litre grass bags have an integrated bag full indicator.

The Comfort Range has been developed with cutting performance and comfort at the heart of the lawnmower. Designed to deliver maximum smooth airflow throughout the entire cutting process, right from the initial front high grass lift bumper which features integrated lift channels to help lift the grass and allow smooth air flow into the cutting deck. The smooth transition of airflow continues through the specially shaped steel deck delivering cleaner cutting, aid discharge through the side deflector, or when closed maximising the airflow through to the grass bag. With eight cutting height settings all easily changed through one comfortable central handle, it is quick and easy to find the right cut height. All models in the Comfort Range come complete with a mulch kit as standard.

## OPTIMA PETROL MOWER'S

Lawnflite's Optima Range of lawnmowers is manufactured to suit customers who want quality, style and additional features at affordable prices. With models from 46 cm / 18" to 53 cm / 21" we can offer you the right mower to keep your lawn looking beautiful. All models have easy to operate single lever height adjustment with settings from 28mm to a maximum of 92mm. The higher settings allow the machine to cope with longer grass on uneven ground.

Lawnflite Optima lawnmowers are powered by Honda and Briggs & Stratton engines. These engines offer high power with low fuel consumption, low emissions and low noise. Specially designed to meet the rigorous standards set by governments for reducing pollution and emissions, these engines are renowned for quality, easy starting and long life.

## COMFORT ROLLER MOWER'S

The Lawnflite Comfort Roller Range of Mower's enhance the mowing experience whilst delivering the perfect traditional striped finish. The comfort handles and rear roller makes manoeuvring around the lawn a pleasure, whilst the self-propelled drive takes the effort out with a mowing speed up to 3.6Km/h.

The Comfort Roller Range has been developed with cutting performance and comfort at the heart of the lawn mower. Designed to deliver maximum smooth airflow throughout the entire cutting process, right from the initial front high grass lift bumper which features integrated lift channels to help lift the grass and allow smooth air flow into the cutting deck. The smooth transition of airflow continues through the specially shaped steel deck maximising the airflow right through to the 60 litre grass bag and delivering a cleaner cut.

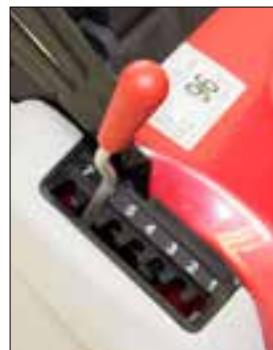

The single height adjustment lever has 7 cutting height settings from 17mm up to 75mm and a large 60 litre grass bag with bag full indicator. All models in the Comfort Roller Range come complete with the reassurance of a two year guarantee as found on all Lawnflite garden machinery.

## MOWER'S FOR PROFESSIONALS

Built to professional specifications, with shaft driven gear boxes, heavy duty alloy decks, sealed roller bearings and strong handles, the Lawnflite Pro range offers a machine to suit all applications.

For that fine lawn finish, the 448SJR and 553HRS roller drive models are single speed with full width steel rollers producing a pronounced stripe on your lawn. They are quiet in operation, have fan assisted collection and a blade brake clutch which means you don't have to re-start the engine when emptying the grassbag.

The 553HRS-PROHS sports a high speed gear to make short work of long lawns, 13% faster than standard model 553HRS.

The four models in the wheeled range have all the features and benefits of the Lawnflite Pro roller mowers but the 448SJW, 553HWS and 553HWS-PRO have 2 speed shaft drive gearboxes giving selectable speed to suit differing conditions. The 553HWS-PRO offers additional features for the professional user including a front mounted bumper, strong handle tubes of 25 mm plus an additional handle support bracket, a steel deck liner and 23 cm / 9" alloy twin bearing wheels. The 553HWSP-HST has the additional benefit of Hydrostatic drive.

## PROFESSIONAL MOWER'S

Professional landscapers and grounds workers can benefit from sustained mowing power with Rover's lawnmowers which are ideal for maintaining large areas of turf, even in damp conditions.

Rover mowers have premium cutting decks, engineered to ensure an unsurpassed quality of cut by incorporating a disc to enable the high lift swing back blades to cut grass whilst providing crankshaft protection to the Briggs & Stratton engine.

All Rover lawnmowers are supplied with a mulch system as standard, offering choice to collect or mulch grass cuttings. The durable grass box is large enough to handle large areas of grass efficiently.

Left: Cutting disc accepts 2 or 4 swing back blades to give crankshaft protection

**The benefits at a glance**

Large cutting width of 84 cm / 33"

Central cutting height adjustment

Mulching or discharge of the clippings as standard

Fully foldable handle

Caster front wheels and rear wheel drive provides great manoeuvrability

Individual PTO and clutch levers

Large pneumatic drive wheels

Zero-Turn function due to transaxle with differential

**Engine**

## WIDE CUT MOWER

The wheel-driven large-area mower is just right for challenging lawns which are particularly wide or on a hill side. It combines the power of a lawn tractor with the concept of a petrol-powered and mulching lawn mower with unbeatable user comfort.

Robust and reliable, the MTD ThorX 420 cc engine effortlessly powers the mower. A cutting width of 84 cm / 33", central cut-height adjustment and fully folding, ergonomic handle perfectly round out the list of convenient features – making even large areas of grass easier than ever to mow.

Weight (approx.)	53 kg
Attachment	Dozer blade (Part.no.:196A755-678)
LpA / LwA / LwAg (db)	86 / 98 / 99

**Type of landscape**

Choose a product with wider wheels and a powerful engine for hilly or sloping ground. Our suspended cutting deck is excellent for larger and uneven lawn areas as it can easily adapt to ground conditions.

**Lawn size**

The lawn area is one of the key factors for choosing the right product. To determine the appropriate working width, please use the chart below or use the symbol you can find beneath every lawn tractor.

## HOW TO CHOOSE THE RIGHT TRACTOR

<b>CUTTING WIDTH</b>	60 cm	76 cm	92-96 cm	105-107 cm
<b>LAWN SIZE</b>	1000 m <sup>2</sup>	1500 m <sup>2</sup> - 2000 m <sup>2</sup>	2500 m <sup>2</sup>	3000 m <sup>2</sup> - 4000 m <sup>2</sup>

This symbol can be found in the specifications of each product. It helps you to determine the ideal machine for your lawn size.

## COLLECTION, DISCHARGE, MULCHING

*Collection*

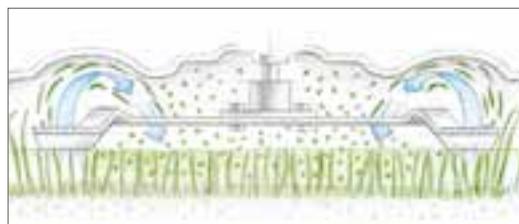

To achieve a professional, perfect cut, the grass clippings can be bagged and composted separately. On all models with rear discharge, the grass catcher can be emptied comfortably from the driver's seat.

*Discharge*

The clippings can be discharged with the aid of a deflector. This is recommended when collection is not required.

*Mulching*

Mulching has the advantage that the soil is fertilised with the grass clippings. The clippings with their nutrients are an ideal natural fertiliser. Mulching is recommendable in the dry summer months to prevent the lawn from drying out. Most models can be equipped with an additional mulch kit.

With a few simple steps you can adapt your tractor to the season and the operating conditions. The options can be recognised by the following logos:

1. Discharge
2. Collection

# TRANSMISSIONS

## *Transmatic transmissions*

Shift-on-the-go. The Transmatic transmission allows for continuously variable shifting. Choose your basic speed by moving the speed shift lever and start mowing. By pressing on the brake pedal you can slow down your speed and start again without having to change gears. Releasing the brake pedal, the tractor automatically resumes your preset speed.

Convertible to  
2-in-1 with optional  
attachments

## *Hydrostatic transmissions*

The hydrostatic transmission allows for smooth and precise manoeuvring. On our tractors with rear discharge, you can control velocity as well as the infinitely variable forward and reverse speed by the tilt foot pedal. Thus, you can leave both hands at the steering wheel, there is no need to operate the clutch or shift gear. On our tractors with side discharge, the drive can be handled very comfortable by manual lever on the side.

1. Discharge
2. Collection
3. Mulching

Convertible from  
2-in-1 function to  
3-in-1 with optional  
attachments

## OUR TRACTORS ARE CLEVER IN EVERY DETAIL

Ergonomically  
arranged controls.

Turf saving wheels.

Mowing deck with  
anti-scalp wheels  
helps prevent damage  
to the grass surface.

All tractors with rear  
discharge have a grass  
catcher which is easy  
to empty from the  
driver's seat.

Small turning radius  
for very good  
manoeuvrability.

Tractors with rear  
discharge and a  
two-blade system have  
counter-rotating blades  
which transport the  
clippings very  
effectively into the  
grass catcher.

Fully forward-folding  
and removable one-  
piece bonnet enables  
easy maintenance.

Step through frame  
makes getting on and  
off extremely easy.

Pivoting front axle  
for an even and  
professional cut even  
over bumpy terrain.

Some lawn tractors by  
Lawnflite are equipped  
with a deck wash  
nozzle for easy cleaning  
of the deck.  
Note: optional on some  
tractors.

**The benefits at a glance**

Step through frame makes getting on and off extremely comfortable

Large grass bag offers the ability to cover large areas in a short time

Small turning radius of only 46 cm / 18"

Offset deck allows mowing close to the edge

Floating deck and pivoting front axle enables smooth engagement

Optional 3-in-1 functions:  
bagging, discharge and mulching

**Engines**

## SMART LAWN TRACTORS

If you have a large lawn to mow and want the job done as quickly as possible, a Lawnflite Smart lawn tractor is the perfect choice for you, whether you opt for a rear discharge or side discharge model. Once you have mown your lawn with this, you'll probably never go back to a walk behind mower.

Lawnflite Smart lawn tractors are practical, robust and reliable, and with a cutting width of 76 cm / 30" to 105 cm / 41", they are ideal for areas measuring 1000m<sup>2</sup> to 3000m<sup>2</sup>. Thanks to the small turning radius of 46 cm / 18", mowing around bushes and flowerbeds is safe and simple. All tractors have a step through frame, making it easy to get on and off, a beverage holder, an adjustable seat, headlights and ergonomically designed controls for deck engagement and transmission. The cutting height can be easily adjusted to five positions between 30mm and 95mm.

Left: "Direct Collect®" A large turbo fan assister, coupled with the heavy duty cutter blade, physically throws and blows grass cuttings, leaves and other debris directly into the large capacity collector. (on model 603RT)

## OPTIMA LAWN TRACTORS

Comfortable and versatile – you won't have to sacrifice a thing with Lawnflite Optima lawn tractors. With a cutting width of 92 cm / 36", 105 cm / 41" and 107 cm / 42" they are real workhorses and ideal for mowing large surfaces. Lawnflite Optima lawn tractors are fitted with a high-performance engine, guaranteeing high performance and long service life.

They are fitted with low-maintenance robust hydrostatic transmissions as standard for a smooth and comfortable ride. The forward-folding and removable hood gives easy access for maintenance work at any time. The floating deck adapts to uneven ground on rough terrains and can be cleaned with the utmost ease and convenience, thanks to the deck wash nozzle that is included for practically all Optima lawn tractors. In addition to the many comfort features of Optima lawn tractors, a battery charger is included. The addition of useful accessories such as a dozer blade, lawn sweeper and spreader attachment, a wide range of home and garden jobs can be completed more quickly and easily all year round.

Left: 46 cm / 18" turning radius for very good manoeuvrability working around trees or in confined spaces.  
Above: Mowing deck with antiscalp wheels to prevent damage to the grass surface.  
Right: All tractors with rear discharge have a grass catcher which is easy to empty from the driver's seat.

## SMART RIDE-ON MOWER'S

Our Smart Ride-on mowers are easy to operate, have an attractive design and are really versatile: they can bag, discharge or mulch grass clippings (optional kits may be required). They are ideal for gardens where the use of a tractor is restricted by flowerbeds, bushes or other obstacles. You can effortlessly mow your lawn sitting down, even gardens with plenty of corners are no problem.

The step through frame makes getting on and off extremely easy and with the choice of transmissions delivering a smooth and comfortable ride, the Smart Ride-on range provides all the benefits of a full size lawn tractor, just in a more compact size.

Thanks to their compact design they are manoeuvrable and after use they can be stored in a space saving way.

Left: Large grass catcher (Standard on LMINIRIDER60RDE & RDHE).  
Above: Step through frame makes getting on and off easy.

## OPTIMA RIDE-ON MOWERS

These Miniriders feature a 382 cm<sup>3</sup> MTD lawn tractor engine and combine all the advantages of a ride-on mower with the performance of a lawn tractor. The level indicator conveniently allows you to monitor the large 4.9-litre fuel tank at any time. The Transmatic transmission with 6 different drive settings allows you to change gear easily while on the move or hydrostatic transmission on the model LMINIRIDER76SDHE, making for an extremely smooth ride. The step-through frame has no pedals or switches to get in the way, making getting on and off the machine safe and easy.

If you need to cut around a third of an acre up to one acre and are looking for a tractor that is well equipped, simple to use and easy to store with small dimensions, then the Optima ride-on mower is for you.

**The benefits at a glance**

Scarifier shaft with fixed double tines for efficient result

Additional dethatcher shaft included

Catcher bag included

Low weight due to polypropylene chassis

Central tine adjustment

Fully foldable ergo-handle

Remote transport position lever

3-in-1 functions: scarifying, aerating and collecting

**Engines**

## SCARIFIERS

Take a deep, conscious breath... That's how your lawn feels after scarification. Twice a year - ideally a dry day in spring or autumn - you should free your lawn from moss. The moss layer is a breeding ground for fungi, it binds moisture and inhibits powerful root growth of your lawn. Lawnflite has a selection of scarifiers, which will fulfil your needs.

### ELECTRIC SCARIFIERS

This powerful electric scarifier is lightweight and efficient. It's an ideal solution for small and medium sized lawns, comes with a catcher bag and is designed for intuitive handling. The fixed tines take up moss and thatch with ease leaving a healthy lawn ready for growth.

### PETROL SCARIFIERS

With our petrol scarifier you have a machine with 15 or 16 blades. The working depth can be selected by adjusting a lever mounted on the handle, ensuring you can select the correct setting for light scarification, or heavier verticutter applications without requiring the use of tools. Fixed tines made of special steel are effective at scarifying while the large rear mounted collector catches the raked-out material, making this a one pass operation.

# TILLERS

Our range of petrol powered tillers are suitable for areas varying from small flower beds and vegetable plots, right the way up to larger allotments. All models feature robust steel construction and either have the high specification MTD ThorX, Loncin or the world renowned Briggs & Stratton Engine.

There is a choice of front or rear tine tillers to choose from, with the larger models featuring a reverse drive function. The self-cleaning tines made of special steel are wear-resistant and self-sharpening deliver excellent results, even on difficult ground. If you need to achieve an even and fine ground surface, these machines do the hard work for you.

## T380M ACCESSORIES

Iron wheels  
196-261-678  
Heavy weight wheels for use when using accessories.

Ridger  
196-262-678  
Ideal for plowing tough terrain.

Potato digger  
196-263-678  
Essential accessory for potato harvest.

Wheels  
196-264-678  
Standard wheels for use with trailed accessories.

Cultivator  
196-265-678  
For hoeing and light cultivation to intermix compost and soil.

## The benefits at a glance - BV3000G

3 - in - 1 function: vacuum, blower and shredder

Volume reduction ratio of up to 10:1

## The benefits at a glance - SC4

Handheld, compact petrol suitcase blower

Anti-vibration comfort grip

Lightweight aluminium crankcase

Heavy-duty fan for durable and powerful work

AST - Advanced Starting Technology

## Engines

**The benefits at a glance**

Easy and quick to operate

Powerful MTD ThorX engine

Left –centre-right brush angling system

5 forward and 2 reverse gears and parking brake function

Highly versatile as can also be used for winter snow removal

Pivoting brush follows uneven ground for efficient sweeping

Solid front caster wheels with innovative reverse brush lift function

**Engine**

## OPTIMA POWER SWEEPER

The Optima Power Sweeper is another great innovation in our product range. It is the all year solution for numerous cleaning jobs around the garden. With 5 forward and 2 reverse ground speeds this power sweeper can be adjusted to the operator's personal pace. Slow speed for snow removal, while fast speed suits summer application. The universal tool-free conversion system allows for an optional dust and dirt collector or a snow blade.

(depending on model)

**Engines**

## WOOD CHIPPERS

Our range of petrol powered wood chippers are designed to offer portability to the chipping operation. These heavy duty professional and domestic machines effortlessly and efficiently handle much thicker material than electric machines. Easy to manoeuvre, simple and safe to operate and gravity fed meaning a more effective higher working speed.

The Lawnflite range of powerful, high output chippers are designed with a simple, effective 2 blade system and conform to the latest standards and safety requirements. They are simple and safe to operate, branches are easily drawn in and chipped, resulting in clean cut wood chips and the GTS1300L has the additional features of a panic bar, safety switch and a rotor blocking system.

**The benefits at a glance**

Wide range of electric and petrol models

Electric log splitters are quiet and effective

Petrol log splitters are ideal for remote working away from a power supply

Splitting force from 4 to 25 tonnes

Two handed control systems ensure a safe working practice

**Engines**

## LOG SPLITTERS

Lawnflite offers a full range of high quality electric and petrol driven log splitters. For use in sensitive areas where noise will cause a problem we have 5 electric models with a splitting force of 4 to 7 tonne. Where noise is not an issue and you need to work away from a power point we have 3 petrol models with splitting forces of 7 tonne to a whopping 25 tonne. All Lawnflite log splitters are fitted with wheels for transportation. All machines are operated by a 2 handed control system to ensure safe working practice.

The dual action push plate of the LS2000DUO means you can split both ways against the dual splitting wedge, efficiently using your time. Whether splitting left to right or right to left you have 7 tonne ram pressure. Please note - If splitting particularly hard wood, the maximum log size stated may not be applicable.

Low vibration handles

Lightweight ergonomic design and well balanced construction

Suitable for a variety of applications from trimming and cutting firewood through to general purpose logging and tree felling

Inertia chain brake and a selection of guide bar lengths

**Engines**

## CHAINSAWS

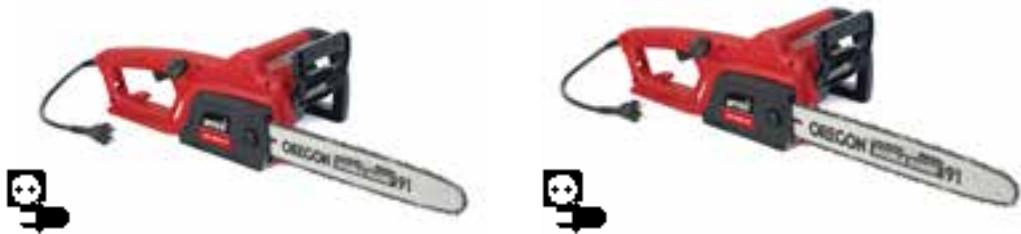

Lawnflite offers a wide range of chainsaws for professional and home consumers alike, in both electric and petrol models meaning we have a model to suit all your requirements.

### ELECTRIC CHAINSAWS

Our high-performance electric chainsaws are ideal for all types of sawing work around the garden which can be done within cord length. Alternatively these versatile machines can be run from a suitable generator. This includes tree trimming and the cutting-down of fruit trees, the building of an arbour in the garden, and cutting firewood as well as small wood and branches. The handle is partly rubber covered ensuring less vibration. Other features include an ergonomic build, engine casing made of fibreglass-reinforced plastic and a slim, well-balanced body.

### PETROL-POWERED CHAINSAWS

These models vary in size and weight to suit a variety of applications, from general purpose logging to tree felling. Our GCS250025T top handle saw is specially designed for the professional user. Our models feature full Anti Vibration handle system, inertia chain brake and a variety of guide bar lengths from 30cm to 45cm and engine sizes from 25 cc to 46 cc. Always discuss your requirements with your Lawnflite dealer and ensure you check out all the safety equipment and safety information to use with your new chainsaw. Specialist training is available from a variety of sources one of which is Lantra, details available on their website.

**Preparation and Safety**

When it comes to chainsaws, we place great importance on safety. Easy to understand symbols on the device support its handling.

We recommend that you seek professional advice before use. Today, many organisations, such as Lantra provide chainsaw user and maintenance courses, details available on their website.

It is also important to remember to wear protective clothing and footwear with each use, in addition to hearing and face protection. Petrol-powered chainsaws create poisonous emissions as soon as the engine is started, which could be odourless and invisible. Therefore, never use petrol-powered chainsaws in enclosed or poorly aired spaces. The surface of the working area should be checked in advance, as dampness, snow, icy conditions or uneven terrain can cause slippage and can be a danger to the operator.

**The benefits at a glance**

Quicker and easier than using traditional manual hedge shears

Powerful electric trimmer perfect for smaller gardens

Fuel efficient petrol models are faster and can go anywhere making them ideal for larger gardens

Low weight models make light work of cutting hedges

Wide range of blade lengths to suit hedges of all types and sizes

Long reach hedge cutter lets you cut tall hedges from the safety of the ground

Comfortable, ergonomically designed handles

**Engines**

## HEDGE SHEARS

It is easy to get the perfect cut using powered hedge shears. Their low weight and cutting widths up to 69 cm / 27" make light work of all hedge types.

### ELECTRIC

With a powerful 600 watt, the HT61E electric hedge shears are the optimal solution for cutting medium sized hedges effectively and safely thanks to the quick-stop function which stops the blade in less than 0.2 seconds.

### PETROL

Petrol hedge cutters are ideal for gardeners who require a high work rate or need to work away from an electricity source. These models make short work of even the longest of hedges and you will be astounded at how much quicker the job is with a petrol hedge cutter.

## BRUSHCUTTERS

Lawnflite offers a comprehensive range of petrol brushcutters, well-built to chop and cut through dense undergrowth, leaving the quality finish you deserve. Whether you are an expert or a new homeowner looking to clear long grass and undergrowth, there is a lawnflite brushcutter to meet your needs. Quiet, simple to operate and with the choice of both cowhorn and D-Handles to choose from, there are options to cover all tasks.

The string trimmers are equipped with the Tap Feed System which re-adjusts the length of the cutting string by bumping it on the ground. The spool can be replaced quickly and easily. Whatever challenges lie ahead, there is a lawnflite brushcutter to get the job done

1- LAT-NSP, 2-LATTMA50IP

**The benefits at a glance**

Four machines in one, a Brushcutter, Hedge Cutter, Pole Pruner and a Strimmer

Requires less storage space than the equivalent four full size machines

Quick and easy to change between attachments

Additional extension for further reach

Powerful two stroke petrol engine

Comfortable single strap harness

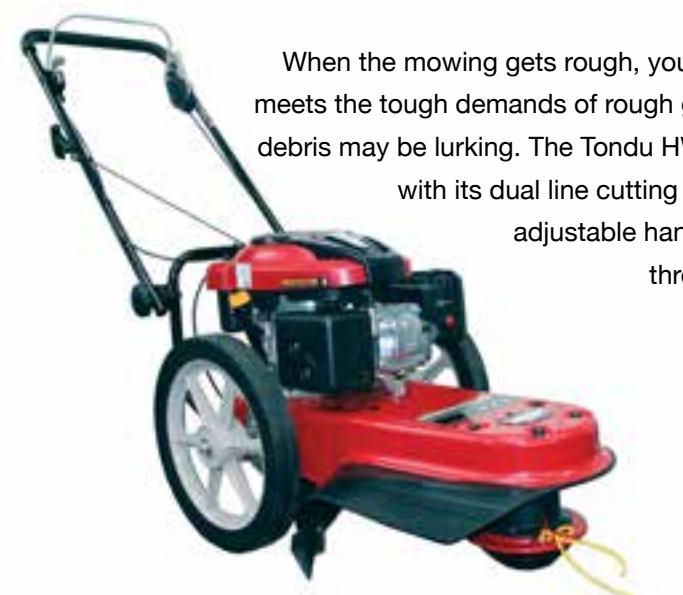

**Engine**

# MULTI CUTTER

The Tondu TMT26-5B is a cost effective multi-tool offering four machines in one, plus the addition of a 700mm extension. This allows the Pole Pruner and Hedge Cutter attachments to be extended enabling even further reach. With a comfortable single strap harness and a powerful two stroke engine, the TMT26-5B multi-tool is the perfect machine for all round garden use.

# WHEELED TRIMMER

When the mowing gets rough, you need a machine that meets the tough demands of rough grass where unknown debris may be lurking. The Tondu HWTL wheeled trimmer with its dual line cutting system, large wheels, adjustable handle system, will wade through the rough areas.

**HWTL**

<b>Engine</b>	Loncin OHV 159 cc 5.5 hp

## The benefits at a glance - Inverter Generators

*Reliable and quiet portable power*

*Extra power on board your boat,  
great for camping and leisure use*

*Safe power for  
sensitive appliances*

## AS Generators

*Powerful enough to keep multiple  
appliances going - fridges, TVs,  
vacuum cleaners, lighting*

*Portable power for work sites for  
cement mixers, hedge trimmers  
and jigsaws*

*LC5000 - LC8000 have smooth  
running wheels and fold away  
handles for ease of transport*

## Engines

# GENERATORS

The Loncin range of powered products includes a wide variety of inverter generators, generators, water pumps and semi trash pumps as well as powering some of the lawnmowers, tillers and chippers in this catalogue.

The Loncin inverter generators are lightweight and smaller than a standard generator and deliver a smooth flow of power. Capable of powering a wide array of equipment, from sensitive electronics, such as laptops and games consoles to industrial jigsaws and angle grinders, these compact and quiet generators are the perfect on the go solution. The range of open frame generators provide the perfect back up power supply for emergency home needs right up to industrial power requirements with models equipped with easy electric start and integrated transport wheels for enhanced manoeuvrability.

# WATER PUMPS & SEMI TRASH PUMPS

The Loncin range of water pumps and semi-trash pumps deliver on power, performance and durability.

Suited to use in gardens, industrial and emergency applications, these pumps shift water, quickly, quietly and efficiently. The 1" water pump is capable of delivering 8,000 litres per hour, the 2" up to 30,000 litres per hour and the 3" water pump an impressive 60,000 litres per hour.

The Loncin 2" High Lift Water Pump features a massive 60 meter lift through a 50mm diameter discharge port and is protected with a full body frame. And when needing to move trashy fluids, the 3" semi trash pump is perfect for these applications.

Left: Full frame keeps pump protected  
Above: Wide application range including emergency services and agriculture

Right: Aluminium alloy and cast iron pump body

Agri-Fab® lawn products are designed for homeowners who want a beautiful lawn and want the job of lawn care to be easy.

Agri-Fab's time saving products will ensure you get the most out of your Garden Tractor.

By choosing Agri-Fab, you can be sure it is the best you can buy.

## SMARTLINK™

### SMARTLINK

The Agri-Fab SmartLINK™ System is an incredibly innovative system from Agri-Fab, which allows different attachments to be fitted to one main attachment.

The Agri-Fab SmartLINK™ System is ideal for fitting on Lawn and Garden Tractors and other Ride-on Mowers.

#### SMARTLINK

#### SMARTLINK

#### 45-0473 SmartLINK™ Base Only

Master platform necessary for all attachments  
Switch from one lawn implement to another in seconds without tools  
Durable heavy gauge steel deck and welded drawbar

#### 45-0458 41" Curved Aerator Blade

Ten galvanized blades for rustproof durability  
Patented Turf Shark™ design combines the best features of a plug aerator and a spike aerator  
Attaches to the SmartLINK™ Master Platform

#### SMARTLINK

#### SMARTLINK

#### 45-0474 53" Core Aerator

Attaches to the SmartLINK™ Master Platform in seconds without tools  
Aerator features 6 rustproof aerator plugs that penetrate deep  
Durable heavy gauge steel deck

#### 45-0457 42" Dethatcher

Attaches to the SmartLINK™ Master Platform in seconds without tools  
Effectively removes thatch build up for a healthier lawn  
20 heat-treated spring tines for durability

## WHY USE AN AERATOR?

When you aerate your lawn, you are opening up the soil surface to let grass roots get the air and moisture it needs for healthy growth

### 45-0299 Plug Aerator

48" / 122 cm working width
10" / 25 cm x 4" / 10 cm pneumatic wheels
Up to 3" / 8 cm aeration depth
Heavy duty steel construction and weight tray
Single lever transport handle

### 45-0525 Curved Spike Aerator

40" / 102 cm working width
60 curved spikes
Up to 3" / 8 cm aeration depth
7" / 18 cm x 1.5" / 4 cm semi-pneumatic tyres
Single lever transport handle

### 45-0294 Spring Tine Dethatcher

40" / 102 cm or 48" / 122 cm working width
20 / 24 heat treated/spring loaded tines
7" / 18 cm x 1.5" / 4 cm semi-pneumatic wheels
Single lever transport handle
Heavy duty tray and steel construction

### 45-0295 Spring Tine Dethatcher

40" / 102 cm or 48" / 122 cm working width
20 / 24 heat treated/spring loaded tines
7" / 18 cm x 1.5" / 4 cm semi-pneumatic wheels
Single lever transport handle
Heavy duty tray and steel construction

### 45-0301 Seeder Spreader

175 lbs / 79 kg capacity provides 40,000 sq.ft./ 3,716 sq. m. coverage
Poly hopper and spreader plate are rust proof
Aerate and seed in one pass with this combined design

### 45-0409 Spreader

4-gallon (dry) / 50 lb. hopper holds plenty of seed for smaller jobs
Up to 8 ft broadcast coverage lets you get the job done in fewer passes
Durable poly wheels

### 45-0388 Push Broadcast Spreader

85 lbs / 39 kg capacity provides 14,200 sq.ft. coverage
Poly hopper and spreader plate are rust proof
8' / 244 cm to 10' / 303 cm spread width

Spreader setting recommendations for multiple materials included

### 45-0462 Push Broadcast Spreader

Extra large 125 lb / 56 kg hopper capacity
Professional style, easy set controls for precise application
Enclosed commercial grade gear box for smooth rolling and easy maintenance
25,000 sq ft coverage; roughly 1/2 acre
Large pneumatic tyres for easy maneuverability

### 45-0526 Spreader

110 lb Broadcast Push Spreader
Poly Hopper and spreader plate are rust proof
20,000 sq ft coverage
Soft grip handles for comfortable movement
Large pneumatic tyres for easy manoeuvrability

### 45-0502 Salt Spreader

Extra large 130 lb / 59 kg hopper capacity
The provided grate improves material flow
Enclosed commercial grade gear box for smooth rolling and easy maintenance
25,000 sq ft coverage; roughly 1/2 acre
The cover and deflector keep material dry and narrows the spread pattern

### 45-0530 Spreader

7-gallon (dry) 85 lb / 38 kg hopper capacity  
Up to 14,200 sq. ft. coverage; roughly 3/10 acre  
On/off control accessible from tractor  
Up to 10 ft spread width for reliable coverage  
Pneumatic tyres allow for smooth transport and easy manoeuvrability

### 45-0215 Tow Broadcast Spreader

100 lbs / 45 kg capacity provides 17,500 sq.ft. coverage  
Poly hopper and spreader plate are rust proof  
Easy to reach flow control lever  
8' / 244 cm to 10' / 304 cm spread width  
10" / 25 cm x 4" / 10 cm pneumatic tyres  
Spreader setting for multiple materials

### 45-0463 Tow Broadcast Spreader

Tow model  
Extra large 125 lb / 56 kg hopper capacity  
Professional style, easy set controls for precise application  
Enclosed commercial grade gear box for smooth rolling and easy maintenance  
Large pneumatic tyres for easy manoeuvrability

### 45-0329 ATV Spreader

175 lbs / 79 kg capacity provides 40,000 sq.ft. coverage  
Large poly hopper and spreader plate are rust proof  
10' / 304 cm to 12' / 366 cm spread width  
15" / 38 cm x 6" / 15 cm pneumatic turf tyres with ball bearings  
Spreader settings for multiple materials

### 45-0527 Spreader

110lb Broadcast Tow Spreader  
Smooth powder coated frame  
Poly Hopper and spreader plate are rust proof  
20,000 sq ft coverage  
Large pneumatic tyres for easy manoeuvrability  
Spreader setting recommendations for multiple materials included

### 45-0288 Spreader

17 gallon (dry) Tow drop spreader  
Can cover up to 40,000 sq. ft – roughly 1 acre  
Ideal for seeding and the application of granular herbicides  
Hopper is made from rust-resistant poly for a longer working-life  
Galvanised steel agitator for even more durability  
Pneumatic tyres improve manoeuvrability

## WHY USE A TRAILER?

It is the best way to save your back as there is no need to carry a big load yourself. A trailer can do that for you allowing you to make the most of every trip!

By choosing an Agri-Fab trailer you can be sure it's the best you can buy. All Agri-Fab trailers are built to last and made to efficiently and easily carry the load.

### 45-0101 Utility Dump Trailer

750 lbs / 340 kg load capacity  
20 gauge 32.5" / 82 cm (W) x 49" / 124 cm (L) x 12" / 30 cm (H) bed  
19 gauge removable tailgate  
Reinforced tailgate guides for added strength  
14" / 36 cm x 4" / 10 cm pneumatic rib tyres  
Easy single lever release dump mechanism  
Smooth black powder coat paint finish

### 45-0348-100 Trailer

300 lbs / 136 kg load capacity  
Poly bed is quiet and rust proof  
30.5" / 77 cm (W) x 41" / 105 cm (L) x 11" / 28 cm (H) one piece bed  
Yellow di-chromate hardware resists rust  
5/8" / 1 cm diameter axle  
14" / 36 cm x 4" / 10 cm pneumatic rib wheels

### 45-0345 Push Dump Trailer

300 lbs / 136 kg load capacity  
Poly bed is quiet and rust proof  
30.5" / 77 cm (W) x 41" / 105 cm (L) x 11" / 28 cm (H) one piece bed  
Yellow di-chromate hardware resists rust  
5/8" / 1 cm diameter axle  
14" / 36 cm x 4" / 10 cm pneumatic rib wheels

## WHY USE A SWEEPER?

Many gardeners are unaware of the benefits of a lawn sweeper. Most use a rake to clear away leaves, grass clippings and garden debris. That's hard work and time consuming. With a lawn sweeper, the job is quicker and easier on you and your lawn.

### 45-0492 Tow Smart Sweeper

- 44" / 112 cm working width
- One-Button brush height adjustment
- 25 cubic feet hopper capacity
- Offset hitch
- Collapsible for easy storage
- Exclusive, patent pending ergonomic dumping mechanism
- No skip design

### 45-0218 Push Lawn Sweeper

- 26" / 66 cm working width
- Rust proof and easy to clean
- Infinite height adjustment
- 7 cubic feet hopper capacity
- 4.5 to 1 brush to wheel turn ratio
- 4 x 10" / 25 cm diameter replaceable brushes
- 10" / 25 cm x 1.75" / 4 cm semi-pneumatic tyres
- Steel tube handle

### 45-0522 Tow Lawn Sweeper

- 26" / 66 cm working width
- Rust proof and easy to clean
- Infinite height adjustment
- 7 cubic feet hopper capacity
- 4.5 to 1 brush to wheel turn ratio
- 4 x 10" / 25 cm diameter replaceable brushes
- 10" / 25 cm x 1.75" / 4 cm semi-pneumatic tyres
- Steel tube handle

## WHY USE A SPRAYER?

Liquid fertilisers, herbicides and pesticides are convenient and effective for large lawn applications. Agri-Fab sprayers are available in two sizes and include a hand wand for targeted spraying around trees and bushes.

### 45-0292 Tow Sprayer

- 12 volt / 7 amp pump with battery connection wires inc.
- 15 gallon tank capacity
- 80" / 203 cm spray width using boom
- 15' / 457 cm coiled hose with spray wand
- 10" / 25 cm x 4" / 10 cm pneumatic wheels

### 45-0293 Tow Sprayer

- 12 volt / 7 amp pump with battery connection wires inc.
- 25 gallon tank capacity
- 80" / 203 cm spray width using boom
- 15' / 457 cm coiled hose with spray wand
- 14" / 36 cm x 4" / 10 cm pneumatic wheels

### 45-0267 Push / Tow Roller

- 18" / 46 cm diameter x 24" / 61 cm wide
- Poly construction for rustproof durability
- Drum capacity 250 lbs (water)
- Lightweight when empty, for easy transport and storage
- Removable fill plug

### 45-0268 Tow Roller

- 18" / 46 cm diameter x 36" / 92 cm wide
- 400 lbs / 181 kg weight with water
- Less than 50 lbs / 23 kg without water for easy storage and transport
- Removable fill plug
- Poly drum is rust proof

### 45-0269 Tow Roller

- 18" / 46 cm diameter x 48" / 122 cm wide
- 550 lbs / 249 kg weight with water
- Less than 60 lbs / 27 kg without water for easy storage and transport
- Removable fill plug
- Poly drum is rust proof

### The benefits at a glance

Multi-purpose poly carts useable as either push behind cart or towed

Poly carts are durable and long lasting

Easy to use single lever transport handle

Rust resistant e-coating and powder coating finish

Pneumatic tyres ensure good traction and an even weight spread

New powder coated red frame for 2017

#### TPS125 Walk Behind Spreader

Capacity: 125 lbs / 60 litre

Spread width: 10' - 12'

14" pneumatic tyre

Rate setting control on handle for precise

Heavy duty aluminium gear

With hopper screen & rain cover

#### TSC1200 Dump Cart

900 lbs / 17 cu ft. capacity

Foot pedal release mechanism for easy dumping

Bed size: 59" x 30.5" x 20.3" /  
150 x 77.5 x 51.5 cm (with rail)

# SERVICING AND PARTS

Our dealers will help you find the Lawnflite or MTD product to suit your requirements; they also offer advice, servicing, parts and product support from warranty to repairs on all our products. Spare parts are available and distributed through the dealer network in the UK.

## FINDING YOUR SPECIALIST DEALER

[www.lawnflite.co.uk](http://www.lawnflite.co.uk)

Lawnflite

@lawnflite\_uk

Visit us online for product information and updates from this brochure. Our dealer locator will help you find your closest dealer.

## WARRANTY

Lawnflite issues two year warranty on all garden machinery. This warranty covers faulty manufacture and materials of units which have been operated and maintained in accordance with the owner's instructions furnished with the unit and which have not been subject to misuse, abuse, neglect, accident, improper maintenance or alteration.

Annual servicing by an authorised Lawnflite Specialist Dealers will keep your equipment in top condition and ensure your machinery meets the Lawnflite two year warranty conditions.

## REPAIR SERVICE

If your equipment ever breaks down, your Lawnflite dealer won't send it away but will repair it in his own workshop. Lawnflite dealers specialise in providing repairs and replacement parts.

## PARTS SERVICE

Our Lawnflite dealers will only supply genuine spare parts from their stock, backed up by reliable UK parts distribution. We pride ourselves in next day delivery of all in-stock parts.

## DELIVERY SERVICE

Large pieces of equipment that you are unable to transport yourself can be delivered right to your door by your Lawnflite dealer. There may be an additional charge for this service.

## DEMONSTRATION

Your Lawnflite dealer may provide a demonstration before you buy so you can fully understand the features and functionality of the product. With Lawnflite, you know what you're getting!

For more information or to contact your nearest dealer please visit our website at [www.lawnflite.co.uk](http://www.lawnflite.co.uk)
