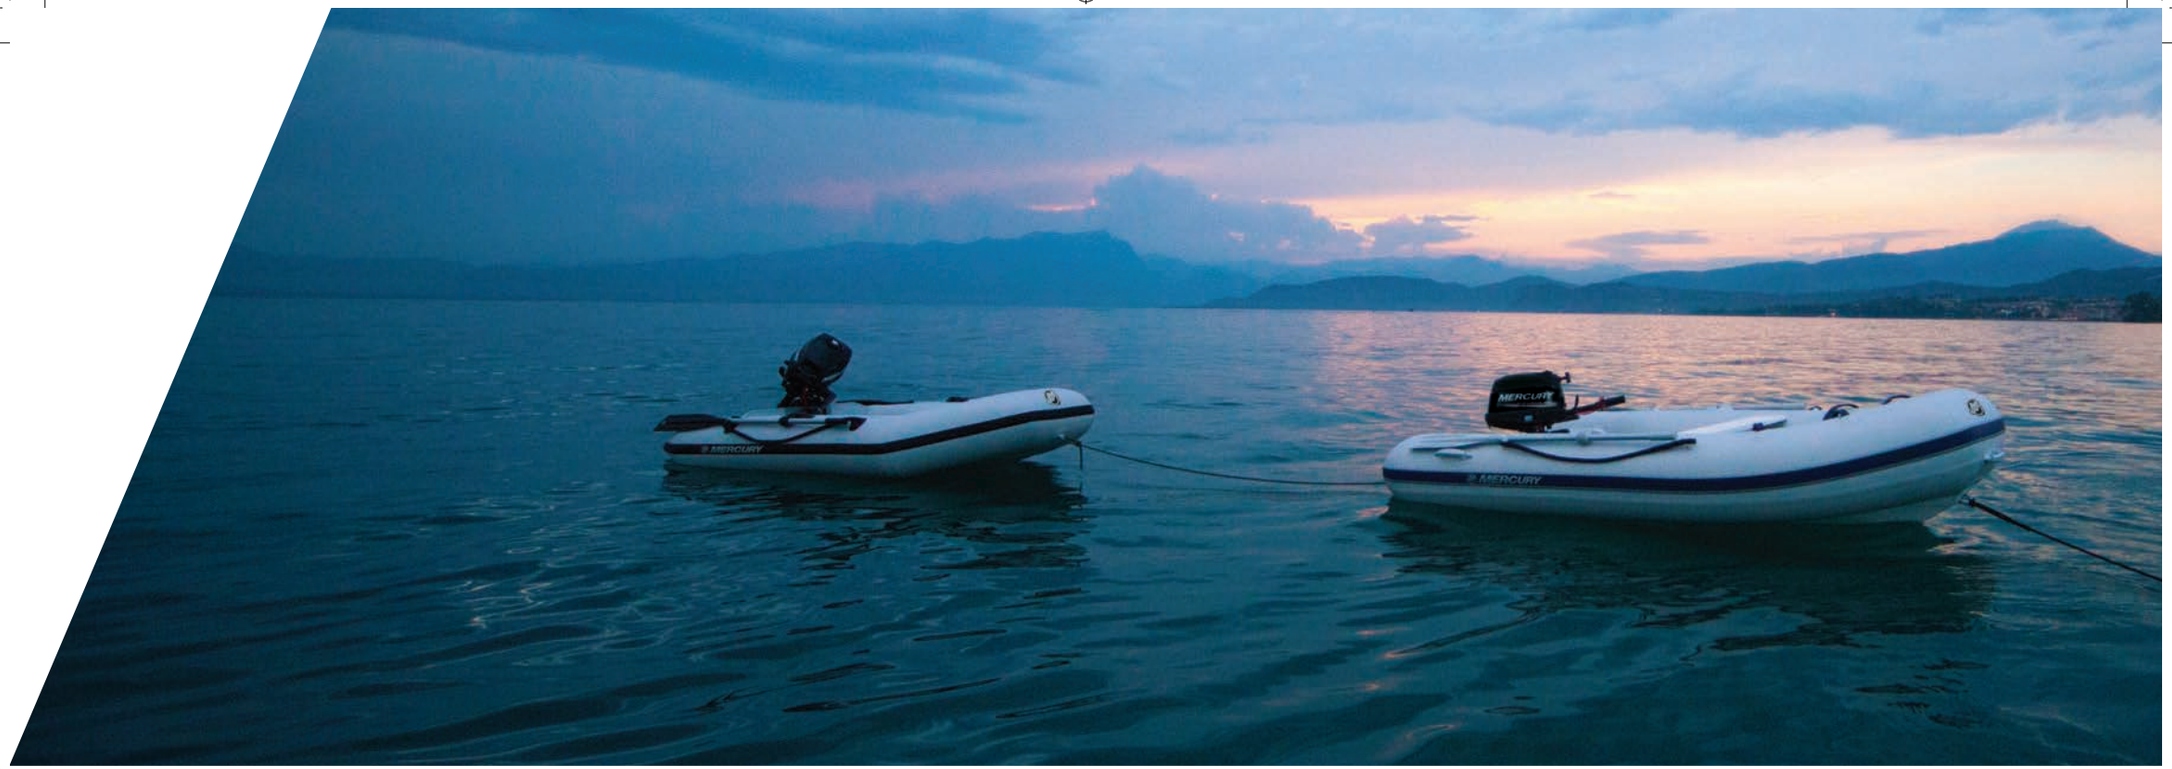
Mercury_Inflatables_2016.indd 1 12/11/2015 15:34:09



Discover a wealth of features on these compact yet roomy and sporting boats.

High value and affordable fun on the water

For more than 75 years Mercury Marine has been engineering, building and providing the finest marine products in the world. It's this same expertise, experience and philosophy delivered across the entire line of Mercury Inflatable products.

About Inflatable boats?

Mercury Inflatables are more than just dinghies or tenders, Mercury Inflatables are the perfect choice when you want portable, affordable fun. Mercury Inflatables are quick to set up and quick to stow, most Mercury Inflatables can easily fit in a car boot or boat locker due to their portability and lightweight construction.

Mercury Marine is dedicated to manufacturing the finest marine products in the world, and our line of inflatable boats is no exception. Mercury Inflatable Boats utilize the most current and highest-quality processes in the industry. This commitment to building a top-of-the-line boat is at the heart of our philosophy. Our inflatable boats are the best from bow to stern. Mercury Inflatable Boats are technologically advanced with VITECH® hulls and thermowelded fabric.

Mercury_Inflatables_2016.indd 2 12/11/2015 15:34:11

Soft Bottom

Mercury Inflatable Boats offer seven models that can be easily collapsed and stored in a carrying bag to eliminate storage issues or the purchase of a trailer. The Dinghy, Ultra Light, Air Deck Deluxe and Air Deck Fishing models can be deflated and collapsed without removing the floor systems used with the boats, resulting in little to no set-up time and a very compact storage option. The Sport, Adventure and Heavy-Duty models are also collapsible, but have rigid floor systems in either fibreglass or aluminium that need to be removed to allow the boat to be stored. Those models have the standard carrying bag and another carrying bag for the floors used in the boats to allow easy storage.

Rigid Bottom

Mercury Inflatable Boats offer now two different models of RIB (Rigid Inflatable Boat) which still allow portability but also focus on performance. The Dynamic models have been introduced to complement the Ocean Runner line. They provide increase hull strength with the exceptional stability of an inflatable boat while maintaining the low overall weight. RIBs are not collapsible and require storage on chocks, davit systems, in the water or on a small trailer.

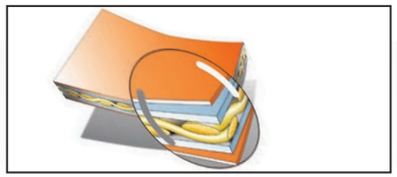
BENEFITS

Whether you need a ship-to-shore tender craft or a lightweight, nimble, and affordable boat for family outings at the lake or beach, Mercury Inflatable Boats are up to the task. With a variety of sizes, fabrics, flooring and hull designs available, you are sure to find the one perfect for whatever use you have in mind.

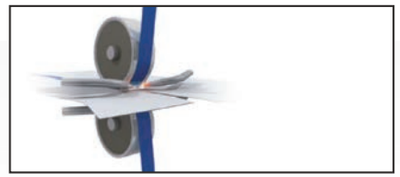


Fabric

PVC MERCURY Inflatables are produced with MEHLER Haku®, a heavy-duty, long-life fabric, which offers excellent resistance against UV, cuts, abrasions and normal wear and tear. This fabric also offers maximum resistance against high temperatures, moisture and dirt.

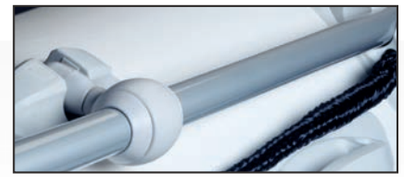
Warranty

MERCURY Inflatables offer one of the best guarantees in the market including 5 years warranty on the Haku® fabric and air holding thermowelded seams giving you assurance of our commitment to quality (excluding Dinghy Series).



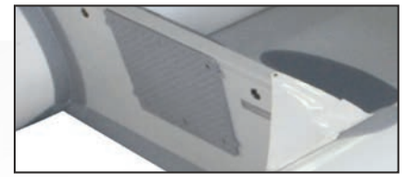
Thermowelding

MERCURY applies the exclusive technique of THERMOWELDING when assembling the PVC Haku® fabric of its tubes. This process combines fusion welding with high pressure bonding of double internal/external tapes, and is used to assemble the different parts of the tubes with welds stronger than the material itself.



Comfort & safety

Fold-down rowlocks are stored on the outside of the tube. The combined oar retainer and rope holder provide an elegant and clean look. The swim platform-mounted davits are easy to install.

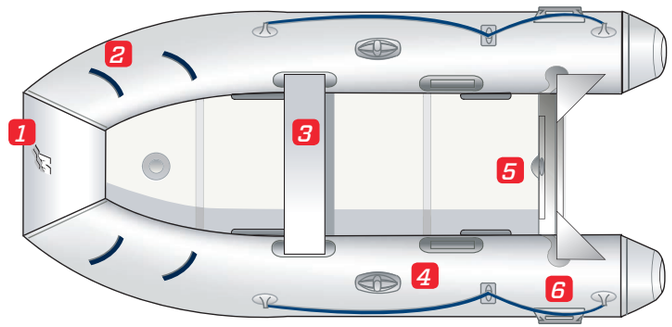


Durability

Transoms, made in fabric laminated, are equipped with an engine pad and plate for your outboard as well as a standard transom cap to avoid knocks when rigging the boat. Stainless steel towing holes are included in the transoms for skiing, wakeboarding or tubing.

5 YEAR PVC LIMITED WARRANTY

MEHLER HAKU
thinking innovation



1 Double tear-drop rub strake

The double tear-drop rub strake helps to reduce splashing and provide your boat with better shock resistance.

2 Bow handles

Extra handles inside the tube provide a more secure grip as well as additional holding points.

3 Polyester seat

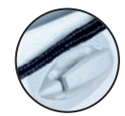
All Mercury models feature durable polyester seats (except for the 420 Ocean Runner & 470 Heavy Duty). A second seat can be added as an option for the larger models.

4 Oarlock system

The oarlock system design has been redesigned so that the oars can be fixed in a simple and secure way.

5 Drain plug

With this inside drain valve, there is no more hanging overboard and fumbling around behind the transom with the engine blocking your way.



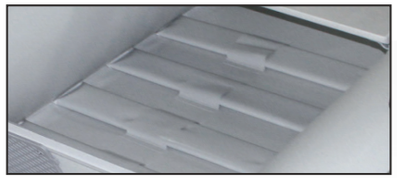
6 Lifting handles

The boats are equipped with contemporary lifting handles that also can be used as efficient rope holders.

Mercury_Inflatables_2016.indd 4 12/11/2015 15:34:26

FLOORS

Mercury Inflatable Boats are equipped with a variety of flooring constructions, each providing a distinct set of advantages for different uses, conditions and applications.

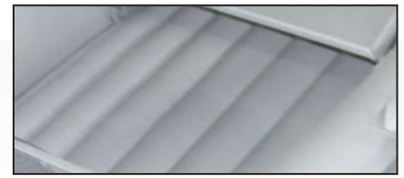


Slatted floor

The dinghy series is also available now with the classic and economical slatted floors. The easiest and most affordable solutions for your tender.

Air Matress (I-Beam)

The dinghy series is available with the traditional air mattress – comfortable, easy to inflate and very resistant.



Air Matress (Y-Beam)

The Ultra Light range introduces a new inflatable Y-Beam floor. This new floor is a fixed special air floor with integrated keel. This special air hull design has a deep V-shape which provides better buoyancy, stability and performance.

Air Deck floor – (X-Stiched)

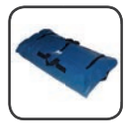
All Air Deck models are featured with an X-stitch inflated floor that provides additional floor rigidity compared with traditional drop-stitching. Our Air Deck floors are also featured with anti-slip. Thousands of X-Stiched fibers give the Mercury air floor 50% more rigidity than traditional air floor systems. New design.

STANDARD EQUIPMENT

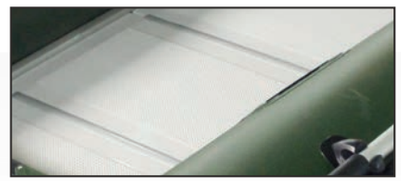
QS double action air pump (+ repair kit)

Pump gauge

Seat (except for the 420 Ocean Runner & 470 Heavy Duty)



Carrying bag for your boat (except for Ocean Runner)



Enduro - Fiber-Reinforced Polymer (FRP - composite)

Our Sport and adventure models are equipped with a sectional FRP floor. They offer the following advantages: waterproof, no degradation, long-lasting, buoyant, lower cost than an aluminium floorboard.

Aluminium

Our Heavy Duty boats and XS models incorporate reinforced aluminium floorboard. The aluminium floorboards are easily installed and provide great stability. Along with toughness, the aluminium floor provides a non-slip surface to enhance your traction in wet and slick conditions. These are highly resistant and suited for high demanding applications or extensive use.

Rigid Hull floor

Our Ocean Runner and new Dynamic RIBs offer a fibreglass hull which incorporates a stable and firm deck. The fibreglass floor allows the stability and performance you expect while maintaining the overall low weight of the boat. This design offers total boating pleasure and increased safety. To ensure safety while entering/exiting the boat, the fibreglass floor has a non-skid deck to eliminate the slippery conditions of water activities.

Mercury_Inflatables_2016.indd 5 12/11/2015 15:34:33

DINGHY

240 / 200

The Dinghy models are compact and very economical for the first-time inflatable buyer, ideal as a ship-to-shore tender.

The Dinghy models are also perfect for families on vacation who want to have fun near the shore, or the individual who has space constraints and cannot transport a large boat.

These new models offer two different floor options.

ULTRA LIGHT

250 / 220

Integrated soft PVC handle

The Ultra Light range introduces a new inflatable Y-Beam floor. This new floor is a fixed special air floor with integrated keel. This special air hull design has a deep V-shape which provides better buoyancy, stability and performance. These boats are specifically developed for easy transportation, compact storage with low weight.

They make an ideal tender that fits easily in a boat locker or cars.

Air Deck Deluxe 220

Thanks to all of the features above the AIR DECK crafts set an example for quality and great design. These general-purpose boats offer lightweight ease of transport with the body-pleasing feel of an air-filled floor – soft enough to yield to knees, yet rigid enough to give up to five people a stable deck surface. These manoeuvrable boats boast a roomy interior and are perfect to be used for short coastal trips or inland and intra coastal boating around islands.

SPORT

415 / 365 XS
320 / 290 / 250

The SPORT ENDURO range includes 3 models in a light grey PVC Haku® fabric. Beyond portability and economy, the Sport Series boasts serious strength, manoeuvrability, and performance.

With their lower centre of gravity and high-strength floors, these boats are made for the distance.

Great for cruising, family fun, water sports or as ship-to-shore tender, the Sport Series has a strong resume as an achiever.

Material: Light grey PVC

Floor type: Composite (Enduro) and Aluminium (XS)

The models 250 up to 320 include:

- *Enduro floor made of high-resistance composite (FRP) material for great stability and safety. No specific maintenance required; simply rinse it with water (see product benefits).*
- *Numbered floorboards for hassle-free assembly.*
- *Sleek design for improved performance and handling at high speed.*
- *Double rubbing strake around the tube helps reduce splashing.*
- *Polyester bench seat.*
- *Safety handles for secure grip.*

Models XS 365 & 415, with certification for more engine power and a more rigid structure:

- *XS floor made of aluminium which is exceptionally resistant (see product benefits).*
- *Increased power allows coastal family boating, water sports and sea fishing.*
- *Rounded cones provide an elegant line to the boat.*

ACCESSORIES

Remember, life vests float. You don't.
Always use your engine's safety stop lanyard.

Boat covers
Hi-tech polyester fabric boat covers with vinyl chloride coating.

Bow storage bag
Fits on most inflatable boats. Easy to fit, durable water-repellant quality.

Underseat storage bag
Fits on most inflatable boats equipped with seats easy to fit durable water-repellant quality.

Portable LED Navigation Light kit
Rights. Multiple mounting options for horizontal and vertical attachment and easy to remove.

Quick release fuel tank tie down kit
Founts to transom or floor boards, secures any size fuel tank in place.

Attachments/patches
For all boats separately available to meet your personal needs.

Outboard lock
For small outboards.

Inflatable boat anchor
Mushroom anchors are an economical solution for light-weight boats. Available with aluminium-painted finish or black PVC coated finish.

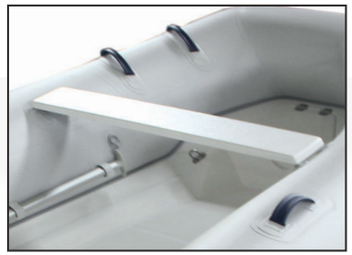
Bow Cushion
Available for 340 - 420 - 460 Ocean Runners.

12 Volt inflator & deflator
Supplied with universal adapters and battery connectors.

Inflator/deflator
Double action pump is much faster than the standard foot pump.

Skit vests & life jackets
Inflatable life jacket made in highly resistant material; top of line in safety matched with maximum comfort in any situation; very compact, ultra light. In compliance with UE standards; buoyancy 150N.

Pressure gauge
For precise boat pressure can be used with hand and electric air pump.



Polyester bench
reinforced for 420 & 460.

Poly Fuel
5 or 20 L

- **Note** : Due to our constant efforts to offer the finest products available, Mercury inflatables reserves the right to change specifications without notice.
- **Warranty** : Brunswick Marine in EMEA backs Mercury Inflatables with a full five-year limited warranty on fabric and air holding seams (except for the DINGHY series for which it is two years).
- **Shaft**: "S" Short - "L" Long.

The very best in engine power and navigation

You may choose among our vast range of robust and powerful Mercury or Mariner outboard engines, the most popular of all times. You will own state of the art engine power and be able to take your boat out to enjoy fun on the water. Moreover, you will benefit from a national and international network of dealers. On top of this, a five-year warranty program is applicable for all eligible Mercury and Mariner outboard engines*.The program will be offered to owners of new Mercury and Mariner outboard engines**.

The warranty applies to Mercury and Mariner Verado®, OptiMax® and FourStroke engines purchased in Europe, the Middle East, Africa and the CIS region. The five years of comprehensive factory-backed coverage includes labour for failures caused by defects in material or workmanship. More so, the new warranty is transferable if the engine is sold within the five-year warranty period. The warranty applies to recreational use only. Warranties on high performance engines and engines used for racing or commercial purposes remain unchanged.

* Conditions and exclusions apply. Promotion excludes Mercury Racing and Mercury Performance Products. ** Provided that all extended warranty conditions are met.

© 2015 Brunswick Marine in EMEA. All Rights Reserved. Part #: 90-9M0101208

Brunswick Marine in EMEA continuously explores means to improve the products it designs, manufactures and distributes. Every effort is made to produce sales and service literature which is current. Changes to specifications of engines, boats and accessories are ongoing.

This brochure should not be regarded as a precise guide to the latest specifications.

This brochure is also not an offer for sales of any particular engine, boat or accessory. Distributors and dealers are not agents of Brunswick Marine in EMEA or one of its affiliates and they have no authority to bind Brunswick Marine in EMEA by any express undertaking or representation, including but not limited to representations of product, sales, applications or service nature.

Not all products are available in all countries and some are available only in limited quantities. Some products shown in this catalogue are equipped with optional accessories. Please see your local dealer.
